

Kaukokiito

Parcel

Domestic business to business
parcel transports

Kaukokiito Parcel is the best way to send consignments of under 100 kg. Your shipments are delivered during the next business day to nearly all parts of the country. The address label with a barcode printed from the order portal functions as the transport document.

Your shipment is handed over personally to the recipient against an acknowledgment of receipt. You can order the Kaukokiito Parcel via Kaukoputki, Unifaun or Consignor online services. You can track the progress of your shipment in real time from the pickup moment all the way to the delivery moment.

Dimensions and weight

The parcel shipment weighs a maximum of 100 kg and its total volume is a maximum of 0.3 m³. The shipment includes a maximum of 10 parcels and the longest side of the parcel is a maximum of 2.4 m, volume 0.3 m³ and weight 35 kg. The length of an individual parcel + circumference is a maximum of 3.3 m.

The shipment goes through a terminal both in the departure and destination points. All parcels should be packed safely. Find precise packing instructions on our website. If the total weight of the shipment exceeds 35 kg, it must be packed on a pallet or on another approved transport carrier.

Order and pricing

The Kaukokiito Parcel service can easily be ordered via the Kaukoputki, Unifaun or Consignor online services. The electronic transport order must be made

on the pickup day by 1:00 p.m. The price of the shipment is formed during the ordering process and it is based on pricing zones and

on the shipment's freighting weight. It is possible to order fee-based additional services for parcel shipments. Please note that the carrier reserves the right to correct the freighting weight.

Pickup and delivery

An electronic parcel order made before 1:00 p.m. is mostly picked up on the same day by 4:00 p.m. An electronic order made after 1:00 p.m. is generally picked up on the next business day.

The shipment will usually be delivered on the next business day following the order. The shipment is delivered to the address specified in the address label and handed over to the recipient against an acknowledgment of receipt.
